Older switches such as the 2900-48G's have a 9 pin serial connector on the back of the switch, newer switches have an RJ-45 connection on the front and use a serial> RJ-45 cable.. After getting my eyes of a Cisco 2960 configured created by DEECD, I decided to replicate their config on our HP Procurve switches.. The following links provide additional information Vulnerability Information for Non-Cisco Products • National Vulnerability Database: <https://nvd>.
